AMERICAN GLADIOLUS SOCIETY

NEW YORK STATE GLADIOLUS SOCIETY

SCHENECTADY FLORICULTURAL SOCIETY

GLADIOLUS have become by far the most popular of summer flowers. Their many beautiful colors and long-keeping qualities make them desirable both for a show in the garden and for bouquets. At present about 7,500 named varieties are on the market, priced from \$100.00 down to 5 cents per bulb, and much less in mixtures. A great many varieties that were introduced at high prices can now be had from five to fifteen cents.

Visit our gardens at blooming time and make your selections.

IRIS AND PEONIES IN JUNE

GLADIOLUS, JULY 15th TO FROST

You can select your favorites while in bloom. Our bulbs are large first size bulbs, and prices are reasonable. Smaller sized bulbs cost less; if small or medium bulbs are wanted, write us. Our bulbs are true to name and if you find any that are not we replace them free.

Plant named varieties and know your Glads by name. Add a few new faces to your garden each year to make the work more interesting.

Reference: NATIONAL BANK OF GLENS FALLS

You can use the list as an Order Sheet by marking the number of each variety you want on the margin. We return the list to you. If interested in bulbs not on the list, ask us—we may have them; if not, can get them for you.

GLADIOLUS LIST

Six at One-half of Dozen Price.

MIXED COLLECTIONS

Over 100 varieties in these mixtures

Large bulbs—50 cts. per doz.	per 100	\$3.00
Medium bulbs	per 100	2.00
Small blooming bulbs (should be planted early)	per 100	1.00
Seedling mixture, new varieties, all colors, mixed bulbs	per 100	1.50

50 bulbs sold at 100 rate — 6 at dozen rate.

If you require bulbs in quantity for resale, we can give special prices.

Gladiolus will grow in almost any soil, but do not do well near trees or too near buildings. They like lots of sun and a well drained soil. If your ground is rich do not use much fertilizer. Bone meal and sheep manure are very good lightly raked in the soil after bulbs are planted.

Gladiolus can be planted in a trench 7 or 8 inches wide in a double row from 2 inches apart or more, according to space and number of bulbs you wish to plant. Plant bulbs about 5 or 6 inches deep in light soil or about 4 inches in heavy soil and the small bulbs from 3 to 4 inches. Keep the weeds out and cultivate often as you want to, as they like it. Your reward will be finer flowers.

Cut the flowers when first blossoms show and by changing the water daily and removing withered blossoms they will keep a week or more. Be sure in cutting the blooms to leave 4 or more leaves on the plant to mature the bulb.

Dig the bulbs when the leaves turn brown; dry for a few weeks; then remove old bulbs and root and store until planting time in cool, dry room or cellar, but be sure they do not freeze.

We exercise care to keep our bulbs true and will replace, free of charge, any that are not true to name, but no responsibility assumed other than replacement of bulb or bulbs —

We prepay charges on all orders of \$1.50 or more. Less than \$1.50, add 10 cents for postage.

Our prices have been greatly reduced and for a small outlay you can have a mass of beautiful flowers in your garden.

DAHLIAS AND CANNAS

Dahlias can be had in separate color collections or mixed.

One each of 12 large exhibition varieties, labeled	\$5.00
Exhibition mixed, 12	2.00
Regular Mixed, 12	1.00
Mixed Cannas, 1275
Separate colors, named varieties; pink, yellow, red, etc., assorted; 12 for	1.25
Delphinium (perennial larkspur), extra good strains, second year plants which bloom this season25

Also larger plants at 50c and 75c each

Order these as early as possible, as they should be planted soon after ground thaws. We also have Phlox and other perennials.

PEONIES

We have about 60 or more varieties and if interested in named varieties get our list. Time to plant is from August 25th until the ground freezes.

We can also supply cold storage varieties at \$1.00 each in pinks, reds, whites, etc., which can be planted in early Spring.

Also can supply following in good color assortment, standard roots, 3 to 5 eyes:

6 varieties, labeled	\$3.50
10 varieties, labeled	6.00
25 varieties, labeled	20.00
